

ALLERGEN GUIDE – SHELLFISH INFORMATION

Wild Adventures will use reasonable efforts to prevent the introduction of the allergen of concern into the food through close attention during our sourcing, preparation and handling processes. However, it is ultimately up to the Guest to use his or her individual discretion to make an informed choice regarding where to order any particular items. Wild Adventures cannot guarantee that allergens may not have been introduced during another stage of the food chain process, or even inadvertently, during preparation. We do not have separate kitchens to prepare allergen-free items or separate dining areas for guests with allergies or intolerances.

Wild Adventures does not serve or prepare any dishes containing shellfish. We cannot guarantee, however, products served have not been processed on equipment at the manufacturer facility that also processes shellfish products.

With any allergen question please request a supervisor upon arriving at a restaurant or food stand to request and obtain information prior to ordering your meal.

**Please notify food management staff if your allergy is severe or requires an isolated environment for cooking or preparation.*
